

MFM-HT75W

Display

Designed for computer, video and television

Integrated NTSC TV tuner, HDTV connectivity and SRS WOW™ 3D Audio Technology for a premium experience with flexible TV/PC connectivity.

HDTV-capable

Enjoy HDTV content right at your desktop. Supports up to 1080i and 720p formats when connected to a high-definition video signal (displayed at native 720P resolution via YPbPr or component).

Premium Picture Quality

High brightness LCD panel w/ XBRITE™ LCD Technology, high contrast and fast video response time means superior video performance for video and gaming.

Picture-in-Picture

Integrated Sony TV tuner with picture-in-picture feature lets you easily intermingle television and movie viewing with computing.

Remote Control

Access features, channels, television and video source control, power, volume and more.

Live beyond your computer. Sony bridges the world of IT and TV technologies to bring you HT-Series PC/TV Displays.

Connects directly to televisions, DVD players, VCRs, satellite and cable boxes as well as PCs with standard and digital connections for a display that show you everything you want to see.
